

Alpine FRESH Water Filter Packages

Refreshing, Clean, Healthy, Alpine Fresh Water At The Turn Of A Tap

Our water filter packages for home or office come complete with our .5 Micron CBC10 Carbon Briquette Cartridge.

- This cartridge filters your water so effectively it's safe to make babies formula with
- With filtration at .5 microns, it is also highly effective at removing Giardia and Cryptosporidium cysts

Other features of the .5 Micron CBC10 Carbon Briquette Cartridge include:

- Highly effective Chlorine Reduction through 90,000 litres
- Removal of Chemicals, Pesticides, Insecticides, Asbestos, Rust, and Sediment
- Meets the highest filtration standard - NSF Standard 53
- Manufactured in the USA using FDA Approved Materials

Both filtration units:

- Feature High Pressure Housing – double O ring seals
- Meet Australian and New Zealand Standards
- Come with Diverter and all Adaptors included
- Come with All Metal Fittings

Plus we'll ring to remind you when our computerised service records tell us your unit is due for it's yearly filter replacement. Our highest quality .5 micron replacement filters cost just \$79.
